Presentation Night

Everyone is looking forward to next week’s Presentation Night which will be held at the Uniting Church Hall from 6pm.

Students have been diligently practising their parts for our production of 'The Wizard of Oz' with the acting and costuming coming together well. We have a number of budding thespians at the school and feel sure that everyone will enjoy the performance.

Thank you to Kath and Kahli who have been assisting with the sewing and altering of costumes and to Karina for supplying some amazing additions to our costume pool.

Australia Post Visit

We were very fortunate to have a visit and informative talk from our 'own postie', Rob Le-Tet when he visited last Thursday. Our students learnt about the new stamps featuring the Solar System that will be issued shortly. Each student also received a sample pack of international stamps to help begin their own collection.

Year 6 Farewell Lunch

With Brynn and Rory completing their primary school education this year, K-Yr 5 will be farewelling them with a special luncheon on Tuesday, 15 December with the children choosing the menu.

A special thank you to The P&C who have kindly offered to subsidise the luncheon.

A special thank you to The P&C who have kindly offered to subsidise the luncheon.
With Years 3-6 undertaking a novel study on ‘The Cay’ this term, we also combined a Science, Technology, Engineering and Maths (STEM) task with the students having to design and build a model raft capable of carrying items necessary for survival.

The completed models were all innovative with everyone having different designs that met the criteria. Each student gave a presentation explaining their design features. The rafts were put to the buoyancy test with them all floating well. An additional challenge followed, experimenting to find the maximum mass each one could hold.

All our students successfully completed the STEM task and are to be commended on their efforts.

Second Robotics Day was a great success with Binda Public School students joining us for an intensive workshop which included learning to code, building our first robot and learning to operate the controls and complete a challenge.

The day each group rotated around the three tasks with the robot building the most challenging as everyone had to be very careful to ensure that the correct part was used. This posed some challenges as the robot had to be stripped down and restarted on a few occasions.

We had some very skilful operators in the robot challenge with two students completing the tasks faster than the Goulburn High School students.
Growing Our Future

Following Presentation Night we will again host a barbeque dinner. Families are asked to bring a dessert plate to share. We will be making up some salads on the night, and need some salad bowls. Please bring one if possible.

In other news, next year’s Autumn Fair will be held on Saturday 26th March from 9am til 1pm. Make a note in your calendars.

Finally, the P & C would like to pass its thanks onto Mrs Watson for the past year. We wish you every success in your future endeavours.

P&C News

We have just had a generous donation from the Lions Club of Gunning of a book for our school library, “Sonoma Meets Miss Mouse” by Di Morrissey. This has been provided through the Reading Action Program with the profits going to Canteen.

Thank you also to the P&C for donating a collection of books to our library.

The end of the year close at hand, we would request that you please return any library books you may have at home by Thursday 10 December, as we would like to complete a library stocktake.

Don’t forget our fantastic fundraiser, Movie Night coming up on Tuesday, 15 December at 6:00pm. All proceeds go towards drought relief in Papua New Guinea and Vanuatu. Tickets on sale at the school through Rory and Brynn.

The last week of term will be a movie extravaganza to complete our great year. With the generosity of our hardworking P&C, our students are off to see Hotel Transylvania 2 on Wednesday, 16 December. Bus costs, movie entry, drink and popcorn are all included in the P&C’s donation.

Please complete the attached permission note and return to the school by Friday, 11 December.
Relieving Principal: Mrs Robyn Watson

Tana, Alyrah, Patrick and Ned (front) and Maggie, Liberty and Ellie (back) learning to code with Mrs Hyland during the robotics workshop.
